American Radio Relay League
Media Guide

Welcome
We’re the American Radio Relay League, Inc., and we’ve been the national association for Amateur Radio for over 100 years — founded in 1914 by Hiram Percy Maxim with a few members, and then a few thousand. Today, our membership ranks have swelled to over 157,000 active Amateur Radio operators residing all over the world.

The League (ARRL for short) is a scientific and teaching organization offering a wide variety of services to our members and to the entire Amateur community. We publish over 175 Amateur Radio titles and our monthly membership journal, QST, is recognized as THE gold standard source of news and information for those devoted to Amateur Radio.

Print Advertising

File preparation tips and guidelines for Print Advertisements

Set All Images and Graphics To CMYK Color Mode

Although modern print systems will automatically convert RGB images to CMYK mode for printing, some changes in color will often occur. Ensure all images and graphics are set to the CMYK color mode to obtain a better representation of how colors will look in the printed product. When converting, you may notice that some colors, particularly those that are especially ‘vibrant’ may appear more ‘dull’ in appearance. This is a normal occurrence as some colors that can be produced on your computer’s screen cannot be recreated in the CMYK printing process.

Sending Your Files

Send your advertisement to us by the materials’ due date. We offer three methods for you to submit your digital files to us:
