

2002 IARU HF World Championship Results

For those of you in the northern hemisphere, how did you spend your summer vacation last year? More specifically, how did you spend the weekend of July 13 and 14?

Were you enjoying outdoor activities? Or were you like the other participants in the 2002 running of the IARU HF World Championship—sitting at your radio(s) making contest QSOs with other competitors all around the world? I hope you were doing the latter!

Whether a seasoned veteran or relative neophyte, this contest has the potential for fun at almost any level. Consider these comments from Janez, S51JM: "This was my first IARU-HF contest. I worked with an FT-840 and ECO multiband vertical antenna. I made 300 QSOs from all over the world. Conditions from my location were a bit frightening with several thunderstorms, including one with hail. I had to disconnect power a few times and had a "rescue operation" for my car during the hailstorm. But as I always say: HAM is fun!"

Franki, ON5ZO, echoed Janez's sentiments when he said, "I've been into CW contesting for 15 months now, and every time I find it more and more fun! This time I participated 20 hours out of 24, and broke my personal QSO-record: 550. Mind you I did it with very limited antennas: an inverted V for 20m and delta loop for 40m. I had a blast working familiar calls and finding OJ-stations. Activity was good and I can't wait for the next one to enter."

Perhaps the enthusiasm for this event is best displayed by then 14-year-old Christopher, KC9AZL (now N9QS). Christopher stated that this was the "first time I ever tried contesting and I made 105 QSOs. I worked 12 new countries and had a lot of fun. I am looking forward to the next contest." (To see more comments from competitors, please visit the ARRL Contest Online Soapbox at www.arrl.org/contests/soapbox.)

Contest Summary

This year's contest resulted in 1682 logs received (not including the WRTC2002 competitors' logs). Fifty of the 90 ITU zones were activated. This isn't

Joel, LX1ER, operating the 20-meter station at LX0HQ.

Expanded Results, Line-Score Printout Available

For complete contest results on-line please visit www.arrl.org/contests/results.

ARRL members without Internet access may obtain a printout of the complete line scores by sending a self-addressed, stamped envelope to ARRL Contest Results, 225 Main St, Newington, CT 06111. Please be sure to include the contest name and year.

bad considering that roughly 30 of the ITU zones are open water and Antarctica. Indeed, the IARU HF World Championship is a blessing to stem our summer contest-withdrawal symptoms.

The HF World Championship contest is sponsored by the International Amateur Radio Union (IARU). The IARU has been the watchdog and spokesman for the international Amateur Radio community since 1925. It is organized into three Regional Organizations that correspond to the three administrative regions of the ITU (International Telecommunication Union). These three regions are further broken down into 90 zones.

While most contesters are familiar with the 40 CQ Zones, the ITU Zones are somewhat lesser known. In addition to there being 90 of them, their boundaries are quite different from the CQ Zones. Table 1 shows the top participation by Zones. The IARU Zone map may be found on-line at www.iaru.org/ituzonesc.gif.

The top participating ITU zone, in terms of the most logs received, was Zone 28 (central and southern Europe). The top

participating country, again in terms of the most logs received, was the US.

Top Scores

From the US and Canadian "good news-bad news" department, the bad news is that only one US station won any of the four categories this year, compared to last year when two US stations won their category.

The good news, though, is that three more North American stations made it into the Top Ten boxes this year compared to last year—11 this year versus 8 last year. More good news is that 4 of these 11 NA stations in the Top Ten boxes were on the West Coast (or even farther West)—KH6ND in Hawaii (extreme West Coast!), K6NA in California, W7EJ in Oregon, and KL9A in Alaska (another extreme West Coast).

One of the hardest-fought battles in the IARU HF World Championship is the race for top honors among the IARU Headquarters stations. The IARU Headquarters category is a true multi-transmitter category, in that signals may be transmitted simultaneously on all band-modes. When the competition was over, the DAØHQ team ended up on top with a score of 18,880,296. The OI2HQ team made a good run at them with a score of 16,693,712. Rounding out the top three was the team at SNØHQ with 16,514,800. Good job, gentlemen!

Headquarters stations operate under a slightly different set of rules for this contest. Unlike the multi-single category, they operate as true multi-multi stations. Most operate with a station on each band-mode (CW and Phone) during the contest. They are also allowed to operate from more than a single location. They count as only 1-point QSOs in your log, but they also are

Jacobo, P43P, ready to have some fun as P4ØB.

A very tired HB9DTM at 4U1ITU, International Amateur radio club station located at the International Telecommunication Union (ITU) in Geneva.

an additional multiplier per band. This explains why you always seem to find a large pile-up trying to work the HQ multipliers during the contest.

Enthusiasm is always high among the HQ stations, as is the competition. Congratulations to the hundreds of operators who participated from HQ stations. In 2002, a total of 241,393 QSOs were completed with the 46 HQ stations on the air.

Bringing home the World Single Op Mixed Mode trophy this year was Yuri, UA9AM. Second place went to Vlad, RK4FF, only 59 kilo points behind Yuri. Oleg, UA9CDV, took third place.

In World Single Op Phone Only, Mike

piloted KH6ND to the top spot. He had a comfortable margin over the second place finisher, Jacobo, P43P, at P4ØB. Third place went to Wanderley, PY2MNL, at ZX2B.

Bob, 5B4AGN, at P3F claimed top honors in Single Op CW Only while setting a new category record with 3,114,887 points. Chris, KL9A, keyed his way to second place. Laszlo, HAØNAR, at HGØD finished in third place.

In the Multioperator category (identical to the ARRL International DX Contest multi-single category—only one transmitted signal allowed at any given time), the

IARU HF World Radio Championship 2002 at ORARI Lokal Penjaringan—YBØZBC

The members of ORARI Lokal Penjaringan (one of the club stations in Jakarta affiliated with the Indonesian IARU member-society Organisasi Amatir Radio Indonesia) arranged for Amateur Radio friends around Jakarta to conduct what they called an *ORARI Lokal Penjaringan 160 Meter Band Antenna Experiment and IARU HF World Radio Championship 2002*.

With more than 80 guests on the spot, they were able to place all antennas around a field, including a 160 meter Delta loop, 80 meter log periodic, 40 meter Lazy Quad, 20 meter 2 element Delta loop, 15 meter/3 element Delta loop and a 10 meter/3-element beam. The antennas were built by YBØFEX, YBØJAX and YCØLOW. We used the call sign YBØZBC, issued to the ORARI Lokal Penjaringan.

The committee worked hard to make this their best ever entry into the IARU HF World Radio Championship. With a full month of background preparation and a week of field preparation, they seemed happy with the result (well, actually not everybody because propagation on some bands wasn't great).

The operators included YBØAZ, YBØLBK, YBØECT, YBØDPO, JA8VE, YBØGN, YBØLOG, YBØCA, YCØEHN, YCØLOW, YBØJAX, JE1ATW, YCØIEM, YBØQO, YBØAVR, YBØAVK, YBØWWW, YB7YB, YCØLCJ, YBØFEX, YBØSKI, YBØJHH and YBØGCV.
