		Macedonia		Z3
◇	Zanzibar	Tanzania	VK1	5H1

\*You may work any prefix that belongs to the entity (i.e. either 6V or 6W for Senegal) – the prefix listed here is just to provide an example. The idea is to work the correct place no matter the call sign.

Recent revisions (3 Jan and 15 Feb):

- Moved Burundi, 9U and Rwanda, 9X under Belgian Congo.
- Added Kaliningrad, UA2, under Germany.
- Noted exclusions under China, Panama, Spanish Morocco, and Saudi Arabia. *Generally, throughout the Diamond DXCC you may not claim credit for more than one entity with one QSO unless otherwise noted. Only Vanuatu (British and French New Hebrides), YJ, and P29 Papua New Guinea (not including the Bismarck Archipelago stations) QSOs can be used for two entities.*
- Added North Korea, P5, under Chosen (Korea).
- Added Lebanon, OD, under Syria, YK.
- Added Swaziland 3DA, and Lesotho, 7P, under Union of South Africa, ZS.
- Removed Franz Josef Land from European Russia.
- Added Tuvalu, T2, under Gilbert and Ellice Islands.
- Added SV8 under the Aegean Islands.
- Specified that stations in Panama City do not count for the Canal Zone.

Note: The intent of this 75<sup>th</sup> anniversary award is to capture the essence and spirit of the first DXCC List with a fun operating activity that allows us to look back and appreciate the wonderful geography of Amateur Radio. We don't intend to try to fit every existing scrap of land into one of the 1937 entities. Some stations we work today will not count towards any entity from 1937. Nor do some of the places we have chosen to represent a certain entity fully match what existed in 1937. The Diamond DXCC awards are not numbered, so relax and enjoy the chase for this is a year-long operating event. We will continue to roll-out improvements in the web tools and information provided.
