Call for Speakers: ARRL Learning Network

ARRL is readying the ARRL Learning Network — a series of webinars presented by member-volunteers, for members. Like hamfest forums and radio club presentations, these webinars are intended to help members get more active, involved, and engaged in amateur radio.

Invited guest presenters will cover topics from three categories:

- **Personal Communications** - like getting started in the digital modes, or radio sport
- **Emergency communications** - like tips for public service communication volunteers
- **Radio electronics and technology** - like QRP kit building, or understanding propagation

Presentations should be short; 30 minutes plus a 15-minute Q&A. Presenters will use live video to share their knowledge, advice, smiling faces, PowerPoint slides, screen-sharing, or other demonstration items. If you've given a forum, you already know what to do! Presentations will also be recorded, so members can view these any time afterwards.

**It’s easy to get started. Complete the online Speakers Form:**

[www.arrl.org/ARRL-Learning-Network-Speakers-Form](http://www.arrl.org/ARRL-Learning-Network-Speakers-Form)

Selected presenters will be contacted and invited to schedule their webinar from a list of upcoming available date/time slots. An ARRL staff member will help coordinate the details with you, so you'll be ready for your presentation day!

Thank you. Together we're advancing the art, science, and enjoyment of amateur radio!
