A full color copy of this newsletter with pictures and hamfest flyers can be found at www.az.arrl.org or http://www.arrl.org/Groups/view/arizona or www.facebook.com/arrlarizona

My family would like to take this opportunity to wish you a very Merry Christmas and Happy New Year. The year 2015 seemed to fly by however it was a lot of fun. So be safe this holiday season and remember safety first. Play a lot with the radio. Robert KE8DM, Helen KA7VLV, Johnathan KB8JGT, and JR KD7TCW, The Spencer Amateur family.

Oro Valley Amateur Radio Club hamfest in Marana, AZ on 7 November 2015 at the Marana Middle school. It opened to cold temperatures and clear skies. Many tailgaters and commercial vendors. I find this hamfest interesting because they seem to move its event date year to year. The people are friendly and there was a lot of equipment and antennas there for sale along with the Civil Air Patrol, and other groups passing out information. This is good to promote agencies that use communications in their missions it also exposes them to Amateur radio and they get an idea on what we do and what we are all about.

2015 HARKFEST Tailgate Hamfest on 14 November was hosted by the Hassayampa Amateur Radio Klub at North Ranch Escapees RV Park in Congress Arizona. An outstanding Hamfest that has a great start time of 8:00 AM. It was twice the size as the one last year. Lots of tailgaters along with commercial vendors and equipment. Very well attended and beginning in the day light hours proves to work. Really no hamfest needs to begin at 6:00AM when it is dark outside in the winter months here in Arizona. This hamfest proves that 0 dark thirty is not necessary to have a great event. Good Job to all the Hassayampa Amateur Radio Klub volunteers.

The Southwest Division Convention for 2016 is being hosted by Arizona Section at the Yuma Hamfest February 19th through the 20th 2016. Go to http://www.yumahamfest.org for further information or snail mail Director of the Yuma Amateur Radio Hamfest Organization (YARHO), Roger Hunt (K7MEX). Snail mail YARHO P.O. Box 1843 Yuma, AZ 85366-1843.

SILENT KEYS

It is with a very heavy heart that I report that Carolyn Dahl KA6LSK passed away earlier this year. Her Passing was sudden. She along with her Husband were very active in Amateur Radio Emergency Service and the Yuma Amateur Community. At the request of her husband Bob Dahl KA6LSL, this notice was held back till now.

Rich Strand, KL7RA, passed away due to complications resulting from a heart attack suffered few weeks ago. R.I.P. my friend.

Lawrence “Larry” Randall KA7UIH passed away on October 1, 2015. Larry was a lifetime member of the ARRL and ARA. He had a passion for teaching and held several Technician and General licensing classes over the years.
YEAR OF PLUTO SPECIAL EVENT DECEMBER 2015

Pluto and Flagstaff, Arizona are forever linked in history. On February 18th, 1930, Clyde Tombaugh, astronomer, discovered Pluto at Lowell Observatory in Flagstaff, using a blink comparator and photographic plates. Eighty five years later, the New Horizons probe reached the Pluto system, imaging Pluto, Charon, and the other small moons.

The year 2015 has been designated the "Year of Pluto." To celebrate, the members of the Northern Arizona DX Association (NADXA) are sponsoring a special event using the call sign of W7P from 00:00Z December 5th to 2400Z December 13. Operations will take place at Lowell Observatory, from inside the Pluto discovery telescope dome, as well as, the homes of the club members. Members will be operating both CW & SSB. There also will be a very special guest operator, Doug Tombaugh, N3PDT, nephew of Clyde Tombaugh who will operate for 3 days during the early part of the event (Dec 6, 7, & 8th as time permits).

Any station who contacts W7P at least once will be eligible for a beautiful glossy commemorative certificate for $5. It will be cardstock quality, frameable and shows a New Horizons image of Pluto, pictures of Lowell telescopes, a brief history of Pluto's discovery, and a description of the New Horizons communication system. All certificates will include a QSL card. USA participants can obtain QSL cards with an SASE or a minimum of a $2 donation sent only to the W7P "Pluto" address as listed in QRZ.com or see details at www.nadxa.com website. All DX contacts send $7. for the certificate or a minimum of a $2 donation & an S.A.E. for QSL. Certificate and QSL request can be sent in the same envelope.

Contact Bob Wertz, NF7E, President, Northern Arizona DX Association bob6315@earthlink.net or call 928-527-0993.

ARIZONA SECTION EMERGENCY COORDINATOR

The holiday is here. That means 2015 will soon be last year. Now is the time to review what you have accomplished to support emcomm in your local area. Have you reached out to new hams to introduce them to emcomm? Have you promoted how ham radio supports your local community? Participated in public service events or drills? Taken any new classes to support emcomm? Added to your Go Kit? Completed your ICS 100, 200 and 700 on line FEMA training and sent your Certificates to your DEC so you can be deployed outside your county? When not spending time with the family, take a few minutes during your busy schedule and plan how to accomplish the things in 2016 that you didn't complete in 2015. Let's continue to work at being prepared for emergencies and letting the public know that ARES is a capable resource. Happy Holidays!

– Dennis Bietry – KE7EJF / Section Emergency Coordinator / ke7ejf@arrl.net

ARRL Board Approves Dues Hike

07/20/2015

Meeting over the weekend in Windsor, Connecticut, the ARRL Board of Directors has approved a $10 increase in the League’s annual dues rate, effective January 1, 2016. In doing so, the Board adopted a recommendation of the Administration & Finance Committee. ARRL basic dues have been held at $39 a year since 2001. Sumner said the League has done as much as it can to hold off a dues increase for more than a decade, but now it’s a necessity, not an option.

“One of the most difficult decisions a membership organization faces is a dues increase,” he said. “Over the past 14 years we have managed to hold the increase in expenses to just 19 percent, against a US inflation rate of 32 percent over the same period. We have implemented operating efficiencies that allowed reducing the staff by 15 percent while expanding the range of services to members and to Amateur Radio as a whole. We created a development program, offering to those members who have greater financial capacity an opportunity to support their national association at a higher level.”

Graham / Greenlee County Area: For VE testing on request, please contact Dave, N7AM, and he will arrange it.

ARIZONA NETS

- Arizona Traffic And Emergency Net (ATEN) meets in the winter from October 15 to April 15 at 5:30 PM and in the summer from April 15 to October 15 at 7:00PM on 3986 kHz daily. Tommy Ivan KF7GC Net Manager, Arizona Section Traffic Manager kf7gc@arrl.net www.atenaz.net

- Arizona Emergency Net – Maricopa (AEN-MAR) meets every Monday at 9:00 PM local time, for training and exercise in the public service communication arts on the Mt. Ord 146.92(-), Shaw Butte 147.24(+) or Scottsdale Airpark 146.760(-) repeaters. The repeaters require a 162.2 Hz tone. The repeaters are linked and cover most of Maricopa County and portions of Pinal, Gila, Coconino and Yavapai Counties in central Arizona. http://www.aen-mar.org
Saguaro National Traffic System (NTS) Net (www.saguaronts.net), meets daily at 6:30 pm MST (0130Z) on the Eastern Arizona Amateur Radio Society (E.A.A.R.S.) (http://www.eaars.org/) repeaters. The repeaters are:

146.86 and (440.700 Hub) Heliograph Peak
147.28 Guthrie Peak - Greenlee County
145.21 Jacks Peak New Mexico. Between Lordsburg & Silver City
145.41 Pinal Peak Near Globe AZ
147.16 Mt Lemmon Near Tucson
146.70 Greens Peak Near Springerville - Showlow
145.27 South Mtn. Near Alpine, AZ
147.08 Mule Mtn. Near Bisbee in Cochise County
147.06 Lil Florida Mtn. Near Deming, New Mexico
145.47 Caballo Mtn. Near Truth or Consequences, New Mexico
145.35 West Peak. West of Heliograph 12 miles

All E.A.A.R.S. network repeaters operate with PL tone 141.3. For more information about this net, contact Greg Peters (kc5zgg@arrl.net), Net Co-Manager. - There are many more nets in Arizona. Contact Tomy Ivan KF7GC for the full list.

AM 2 meter net Greater Phoenix Metropolitan area, 2 meter AM net, 144.450 MHz, every Tuesday night at 1930 MST. Antenna vertical polarization. The 144.450 MHz is a coordinated AM frequency in Arizona. This is an informal NET, most discussions are technical. All are welcome.

ON-LINE AMATEUR RADIO COURSE
Several new hams wrote to me about an online Amateur Radio Course put together by Andy KE4GKP. They have the Technician, General and even Morse Code courses. Check them out at http://www.hamwhisperer.com/p/ham-courses.html it is even available on YouTube.

Ham Radio Contests
- For information on June contests go http://www.arrl.org/files/file/Contest%20Corral/

Have an event coming up? Let me know. Send me the flyer and I will add it to this newsletter. ke8dm@arrl.org

Note: If you are receiving the text version of this newsletter, the flyers can be found at www.az-arrl.org or http://www.arrl.org/Groups/view/arizona

• Please park in designated areas only
• Snacks and beverages will be available for purchase on site

hamfest@w7tbc.org  
rev. 8/20/2015
What is QuartzFest?

QuartzFest 2016 is an ARRL Specialty Convention being held January 17 to 23, 2016. No other hamfest in the world brings together in one gathering so much innovation in mobile antenna systems, mobile ham shacks, recreational vehicles, portable and mobile EMCOMM systems, off-the-grid living, alternative energy and radio education.

QuartzFest is special in part because it comes to life each year, rising from nothing in a remote area of the Sonoran desert in the southwestern USA. Hundreds of Hams and their families and friends choose to unplug from their daily lives, travel to and setup this desert community, and immerse themselves in this week-long one-of-a-kind ham radio, camping, learning and living event.

The educational classes at QuartzFest offer something for everyone including those new to ham radio or even the most seasoned veteran. They give participants the chance to put hands-on the latest technology, learn ham radio for the first time, study advanced radio theory and to even take a glimpse into the future of radio science. The learning also continues well-beyond the technical lectures all the way from morning coffee... through social events, music, arts and crafts classes during the day... and into the evening while sitting around the campfire or while star-gazing.

We hope you will decide to join us in 2016 which promises to be one of the most exciting editions of this very unique and special ham radio gathering. 73,

The QuartzFest Planning Committee

An ARRL Specialty Convention
# 2016 SW Division Convention
