The ARRL Operating Manual 11th Edition

Item No. 0598 — \$24.95

The ARRL Operating Manual for Radio Amateurs

is the most comprehensive guide to Amateur Radio operating — things you can do on the air with your gear.

In some cases, you may need to pick up new software or another radio,

antenna, or accessory, but in many cases you already have the tools you need to get started. Each topic has been written and updated by experienced hams who are active on the air. They are happy to share what they have learned, so that you can get involved too.

Includes:

Basic Station and Operating Techniques

- Assembling a Station
- Basic Operating Procedures

- HF Digital Communications
- VHF/UHF FM, Repeaters, Digital Voice and Data
- VHF/UHF Beyond FM and Repeaters
- Amateur Satellites
- Image Communications
- Portable and Mobile Operation

Radio Clubs and Public Service

- Group Activities for the Radio Amateur
- Preparing the Next Generation
- ARRL Field Day
- Public Service Operating

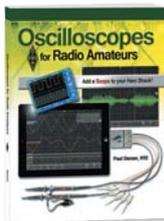

On-Air Activities and Radiosport

- Awards — Measuring Operating Achievements
- DXing — Contacting Those Faraway Places
- Confirming the Contact — QSLing
- Contesting — Competitive Wireless

Resources for the Active Ham

- A collection of useful information to support on-air operating activities.

Available as a two part e-book, Volumes 1 & 2 and Volumes 3 & 4, for the Amazon Kindle.

Oscilloscopes for Radio Amateurs

Item No. 0976 — \$22.95

ARRL Member Price \$19.95

Filled with practical information you'll need for using a scope. It begins with an overview of the oscilloscope and continues on to discuss characteristics, applications, probes, controls, and input modes. Select an oscilloscope that is right for you!

The digital edition is available in the Kindle format from Amazon.

Digital Storage Oscilloscopes for Ham Radio

The modern Digital Storage Oscilloscope is an advanced and rapidly developing instrument that is finding its way into the Amateur Radio station in a number of useful and interesting ways. This is an introduction to the capabilities of the DSO and how to use one in your ham shack.

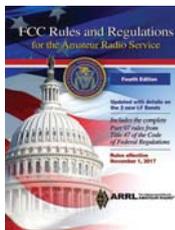

This book is available in digital format only. To order download the e-book in the Kindle format from Amazon.

FCC Rules and Regs for the Amateur Radio Service

4th Edition

Item No. 1173 — \$7.95

Includes the complete Part 97 rules from Title 47 of the Code of Federal Regulations. Updated with details on the new HF Bands. Rules effective November 1, 2017.

Radios to Go

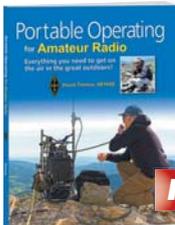

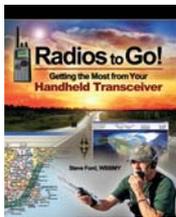

Steve Ford, WB8IMY

Item No. 3077 — \$17.95

ARRL Member Price! \$15.95

If you own a handheld transceiver, or trying to decide which one to buy, this is an essential guide! Unleash "hidden" capabilities that aren't described in user manuals.

The digital edition is available in the Kindle format from Amazon.

Portable Operating for Amateur Radio

Stuart Thomas, KB1HQS

Item No. 0802 — \$22.95

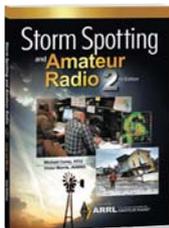

ARRL Member Price \$19.95

A new generation of compact, full-featured, portable radios combine modern battery technology to make it easier than ever to set up your station and enjoy Amateur Radio in the great outdoors. This book offers a wealth of practical information to help make Amateur Radio operating successful.

The digital edition is available in the Kindle format from Amazon.

NEW!

Grab Your Gear and Head Outdoors!

Storm Spotting and Amateur Radio

2nd Edition
Item No. 0574 – \$22.95
ARRL Member Price! \$19.95

A resource for Amateur Radio operators who volunteer as trained storm spotters. Includes equipment, safety, storm spotter activation procedures, and developing a local storm spotter manual.

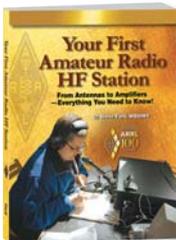

The digital edition is available in the Kindle format from Amazon.

Your First Amateur Radio HF Station

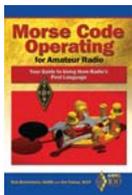

Steve Ford, WB8IMY
Item No. 0079 - \$22.95
ARRL Member Price! \$19.95

A complete guide to setting up your station and getting started in HF communications. Whether you're new to Amateur Radio or HF operating you'll learn how to get on the air and enjoy all that Amateur Radio has to offer.

The digital edition is available in the Kindle format from Amazon.

Morse Code Operating for Amateur Radio

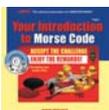

Item No. 0004 – \$17.95
ARRL Member Price! \$15.95

Discover the advantages to learning and using Morse code, how to set up your station for CW and how to adjust your Morse code key. You'll gain the confidence you need to try out your new skills on the air!

Introduction to Morse Code

Item No. 8314 – \$14.95

Don't just learn the code-master it! This set includes two audio CDs with nearly 2-1/2 hours of practice. As you learn Morse code at 5 words-per-minute. Follow the proven ARRL teaching system.

ARRL Morse Code Oscillator Kit

Item No. 0022 – \$24.95
A great "beginners" electronics kit! Ideal for ARRL members, Amateur

Radio newcomers and instructors seeking a classroom kit-building experience.

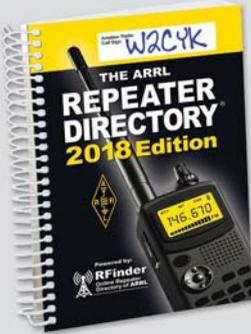

Morse Code Key

Item No. 0242 – \$15.95
Explore the fun of Morse code! This Morse code straight key includes an adjustment for tension and an adjustment for gap size. The base includes mounting holes. For use with ARRL's Morse Code Oscillator Kit (sold separately).

The ARRL Repeater Directory® 2018 Edition

Item No. 0758 – \$19.95
ARRL Member Price! \$17.95

Make it yours!

This edition includes "crowdsourced" listings contributed by users, repeater owners, and volunteer frequency coordinators. This means more listings, updated more often. Public service volunteers: include this printed directory with your emergency 'go kit'.

- Over 31,000 listings. World's largest printed directory of repeater systems.
- Listings for US and Canada, organized by state/province, city, and operating mode.
- Digital repeaters including FM, FUSION, D-STAR, DMR, NXDN, and P25 systems.
- VHF/UHF and microwave band plans included.
- Spiral "lay flat" binding (one size: 6" x 9").
- Make it yours!** Cover includes space to personalize your directory (permanent marker or label recommended).

RFinder – The Worldwide Repeater Directory

RFinder is the Worldwide Repeater Directory and the online repeater directory of ARRL.

Get access to listings for 50,000+ repeaters in 170+ countries. RFinder is integrated with EchoLink® on Android™ and iOS. An annual subscription includes access to the directory from the apps, RT Systems, CHIRP, web, rfinder.net, routes.rfinder.net, and a growing list of third party applications that use repeater data!

Annual Subscription

The ARRL Handbook 2018 Edition

Softcover. Book with download
Item No. 0710 – \$49.95

The ARRL Handbook is the most widely used one-stop reference and guide to radio technology principles and practices. Since 1926, it has covered the state-of-the-art, but also emerging technologies in radio experimentation, discovery, and achievement. This fully revised edition has been extensively updated, and includes significant new content. Each chapter has been authored and edited by experts in the subject.

Introduction

What is Amateur (Ham) Radio?

- Fundamental Theory
- Electrical Fundamentals
- Radio Fundamentals
- Circuits and Components

Practical Design and Principles

- RF Techniques
- Computer-Aided Circuit Design
- Power Sources
- DSP and SDR Fundamentals
- Oscillators and Synthesizers
- Analog and Digital Filtering
- Modulation
- Receiving
- Transmitting
- Transceiver Design Topics
- Digital Protocols and Modes
- Telemetry and Navigation
- RF Power Amplifiers
- Repeaters

Antenna Systems and Radio Propagation

- Propagation of Radio Signals
- Transmission Lines
- Antennas

Station Construction, Maintenance, and Management

- Component Data and References
- Construction Techniques
- Assembling a Station
- Test Equipment and Measurements
- Troubleshooting and Maintenance
- RF Interference
- Safety

Downloadable Content and Tools

- Space Communications
- Digital Communications
- Image Communications
- Digital Basics
- Station Accessories and Projects
- 2018 Annual Transceiver Survey

*The ARRL Handbook:
A Lifetime of Learning*

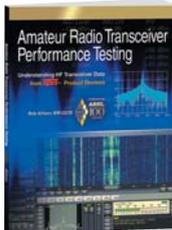

Amateur Radio Transceiver Performance Testing

Bob Allison, WB1GCM

Item No. 0086 – \$22.95
ARRL Member Price! \$19.95

Learn the technical terms and parameters presented in QST's Product Review, how published data relates to actual performance, and what the numbers mean. Great for ham radio operators looking to purchase a transceiver.

The digital edition is available in the Kindle format from Amazon.

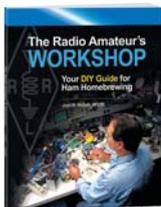

The Radio Amateur's Workshop

Joel R. Hallas, W1ZR

Item No. 0482 – \$22.95
ARRL Member Price! \$19.95

Your guide to setting up and maintaining an efficient at-home laboratory and work station. It describes the tools you'll need for projects ranging from assembling electronic kits to building and testing antennas.

The digital edition is available in the Kindle format from Amazon.

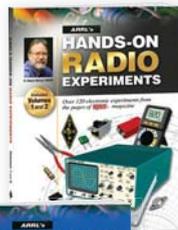

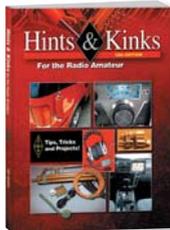

Hints and Kinks for the Radio Amateur

18th Edition

Item No. 5200 – \$22.95
ARRL Member Price! \$19.95

8 years of the best projects and problem-solving techniques from QST's Hints & Kinks column, one of the most popular sections of the journal. Projects and practical information you can use every day!

ARRL's Hands-On Radio Experiments

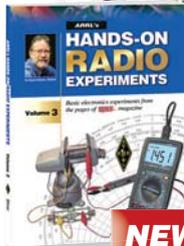

Ward Silver, N0AX

Volume 1 and 2
Item No. 0857 – \$29.95

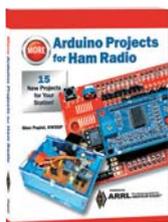

Volume 3
Item No. 0796 – \$22.95
ARRL Member Price! \$19.95

Each volume features short electronics experiments, designed to increase your understanding of basic radio

fundamentals, components, circuits and design. The experiments, devised by Ward Silver, N0AX, first appeared in QST magazine's "Hands-On Radio" column. The collection covers a wealth of topics designed to educate today's radio experimenters, and inspire others who want to learn what makes their radios work.

NEW!

More Arduino Projects for Ham Radio

Glen Popiel, KW5GP

Item No. 0703 – \$39.95
ARRL Member Price! \$34.95

Build a solid foundation through descriptions of Arduino boards and add-on components. Features 15 Arduino projects for your ham radio station. Each project is complete and functional as-is, but room

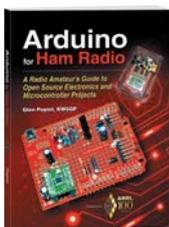

has been left for you to add personal touches and enhancements.

Arduino for Ham Radio

Glen Popiel, KW5GP

Item No. 0161 – \$34.95
ARRL Member Price! \$29.95

An introduction to Arduino microcontrollers and practical projects for the Amateur Radio station. It starts by building a solid foundation through descriptions of various Arduino boards and add-on components, followed by a collection of ham radio-related practical projects.

Ham Radio for Arduino and PICAXE

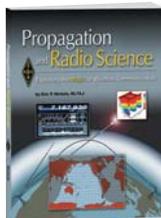

Item No. 3244 – \$34.95
ARRL Member Price! \$29.95

An introduction to the fun of experimenting with microcontrollers. Features projects that will enhance your ham radio station and operating capabilities. Or, use these projects as a launch pad for creating your own projects.

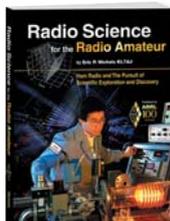

Propagation and Radio Science

Item No. 0277 – \$27.95
ARRL Member Price! \$24.95

Topics range from theoretical exploration to practical application. It explains the phenomenon we observe on the amateur bands and invites you to embark on the journey through the still-unknown radio propagation universe.

The digital edition is available in the Kindle format from Amazon.

Radio Science for the Radio Amateur

Item No. 3381 – \$27.95
ARRL Member Price! \$24.95

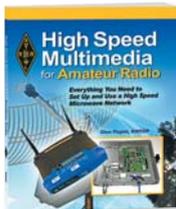

Explore the science and technology of the radio universe. You'll find solving long-standing mysteries of radio doesn't require expensive hardware, but a scientific mindset and attention to detail.

High Speed Multimedia for Amateur Radio

Glen Popiel, KW5GP

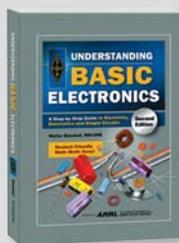

Item No. 0529 – \$27.95
ARRL Member Price! \$24.95

An introduction to HSMM networking, the basics of how it works, and the various technologies in use today. Learn how to deploy your own HSMM network, along with various applications to put it to work.

The digital edition is available in the Kindle format from Amazon.

ARRL "Basic" Book Series

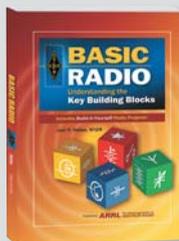

Understanding Basic Electronics

2nd Edition
 Item No. 0823 – \$32.95
ARRL Member Price! \$29.95

Written in an easy-to-understand style that beginners and nontechnical readers will enjoy. Real-world examples and clear illustrations make electronics interesting and fun!

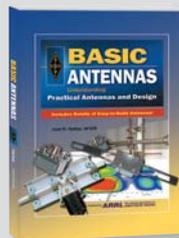

The digital edition is available in the Kindle format from Amazon.

Basic Radio

Understanding the Key Building Blocks
 Joel R. Hallas, W1ZR
 Item No. 9558 – \$29.95

An introduction to radio for everyone. Reveals the key building blocks of radio: receivers, transmitters, antennas, and propagation. Simple, build-it-yourself projects turn theory into practice.

Basic Antennas

Understanding Practical Antennas and Design
 Joel R. Hallas, W1ZR
 Item No. 9994 – \$29.95

A comprehensive introduction to antennas. Includes basic concepts, practical designs, and easy-to-build antennas. You'll learn how to make antennas that *really* work!

3 Books to Expand Your Know-How of Radio, Electronics, and Antennas.

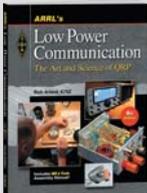

ARRL's Low Power Communication 4th Edition

Rich Arland, K7SZ

Item No. 5828 – \$27.95

ARRL Member Price! \$24.95

Your guidebook to the fascinating world of low power QRP operating. With only 5 W or less — sometimes much less — you can enjoy conversations over hundreds and even thousands of miles. **Bonus!** Includes the complete assembly manual for the MFJ Cub Transceiver Kit (sold separately).

Get the Book with the Kit!

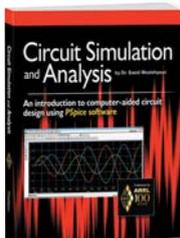

ARRL's Low Power Communication with 40-meter CW Cub Transceiver Kit

Item No. 5828K – \$105.95

Build the kit in just a few hours, and you'll be working the world with low-power fun!

20-meter CW Cub Transceiver Kit

Item No. 0018 – \$89.95

Circuit Simulation and Analysis

Item No. 0055 – \$27.95

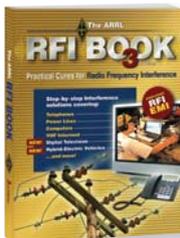

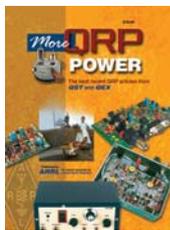

ARRL Member Price! \$24.95

An introduction to designing and testing simple circuits using PSpice software. It discusses the tools you'll need to create simple circuits and understand their behavior. For beginners in PSpice with a background in basic electronics.

More QRP Power

Item No. 9655 – \$19.95

Here are *more* projects and articles for low power radio operating, from the pages of *QST* and *QEX* magazines: construction practices, transceivers, transmitters, receivers, accessories, and antennas.

The ARRL RFI Book

3rd Edition

Item No. 0915 – \$29.95

Interference solutions covering telephones, power lines, computers and audio equipment. Resources for addressing new realities of digital cable TV systems, over-the-air TV signals, trouble-shooting, and hybrid and all-electric automobiles.

Grounding and Bonding for the Radio Amateur

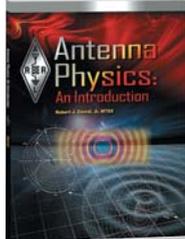

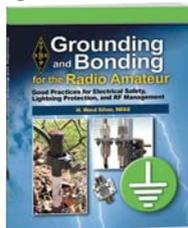

Ward Silver, N0AX

Item No. 0659 – \$25.95

ARRL Member Price! \$22.95

Proper station grounding is important. Build your ham radio station with effective grounding and bonding techniques: electrical safety, lightning protection, and RF management.

The digital edition is available in the Kindle format from Amazon.

Antenna Physics: An Introduction

Item No. 0499 – \$29.95

Written to bridge the gap between basic theory and graduate-level engineering texts. Delve deeper into antenna theory, and explore the underlying principles, and mathematics, of antennas and antenna physics.

The digital edition is available in the Kindle format from Amazon.

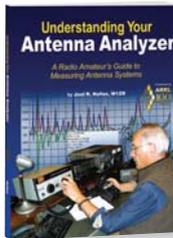

Understanding Your Antenna Analyzer

Joel Hallas, W1ZR

Item No. 2889 – \$25.95

ARRL Member Price! \$22.95

An introduction to the various types of analyzers available, their component parts, how they operate and how to utilize them to get the best possible data. Includes product review testing and an in depth look at antenna analyzers available today.

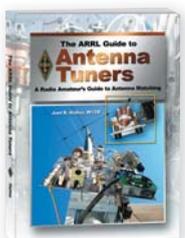

The ARRL Guide to Antenna Tuners

Joel Hallas, W1ZR

Item No. 0984 – \$22.95

Explore the design, construction and applications of the different types of antenna tuners. You'll gain a better understanding of your antenna system and the way it can be improved through the use of the appropriate antenna tuner.

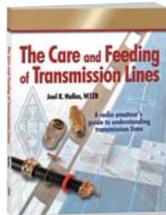

The Care and Feeding of Transmission Lines

Joel Hallas, W1ZR

Item No. 4784 – \$27.95

ARRL Member Price! \$24.95

An introduction to the various types of transmission lines, key parameters of coaxial cable and balanced line types. Learn how to select the appropriate transmission line for an application and install it.

The ARRL Antenna Book 23rd Edition

Softcover. Book with CD-ROM
Item No. 0444 – \$49.95

The ARRL Antenna Book has everything you need to design your own complete antenna system. Since 1939, it has maintained its place at the forefront—a single resource covering antenna theory, design and construction, and practical treatments and projects. It describes hundreds of antenna designs: wire, vertical, portable and mobile, and new high-performance VHF/UHF Yagi designs.

Includes:

Basic Antenna Topics

- Antenna Fundamentals
- Dipoles and Monopoles
- The Effects of Ground
- Radio Wave Propagation
- Loop Antennas
- Multielement Arrays
- Log-Periodic Dipole Arrays
- Antenna Modeling

MF and HF Antennas

- Single-Band MF and HF Antennas
- Multiband HF Antennas
- HF Yagi and Quad Antennas
- Broadside and End-Fire Arrays
- Long-Wire and Traveling-Wave Antennas
- HF Antenna System Design

VHF, UHF, and Microwave Antennas

- VHF and UHF Antenna Systems
- VHF and UHF Mobile Antennas
- Antennas for Space Communications
- Repeater Antenna Systems

Special Applications

- Portable Antennas
- Stealth and Limited Space Antennas
- Mobile and Maritime HF Antennas
- Receiving and Direction-Finding Antennas

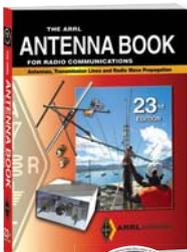

Transmission Lines

- Transmission Lines
- Transmission Line System Techniques

Building and Maintaining Antenna Systems

- Antenna Materials and Construction
- Building Antenna Systems and Towers
- Antenna and Transmission Line Measurements
- Antenna System Troubleshooting

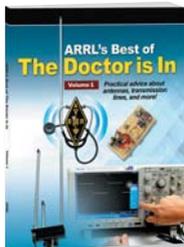

The ARRL Antenna Book is the ultimate reference for antennas, transmission lines and propagation.

ARRL's Best of The Doctor is In

Volume 1
Item No. 0741 – \$22.95
ARRL Member Price! \$19.95

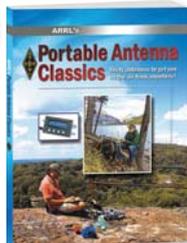

Based on the QST column "The Doctor is In" by Joel Hallas, W1ZR, this Volume 1 in the series includes the most frequently asked questions, as well as Joel's detailed answers, on the topic of antenna systems. You'll find helpful information.

ARRL's Portable Antenna Classics

Item No. 0345 – \$22.95
ARRL Member Price! \$19.95

Helpful articles gathered from more than three decades of QST. Featuring easily constructed antenna systems that offer adequate performance, this book provides practical ideas and projects to get you on the air from anywhere.

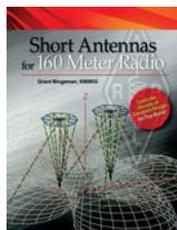

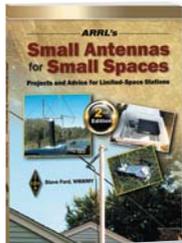

Small Antennas for Small Spaces

2nd Edition
Steve Ford, WB8IMY
Item No. 0512 – \$22.95
ARRL Member Price! \$19.95

A resource for radio amateurs who live in apartments, condominiums, or houses on small lots. Filled with practical advice, you'll find the right antenna design to fit your space.

The digital edition is available in the Kindle format from Amazon.

Short Antennas for 160 Meter Radio

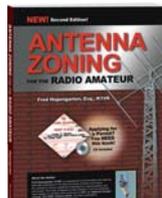

Item No. 5798 – \$22.95
ARRL Member Price! \$19.95

Intended for amateurs with advanced skills in antenna modeling, this book walks through innovative designs for relatively compact antennas. Enhance bandwidth, minimize loss, and employ other techniques to enjoy 160 meters.

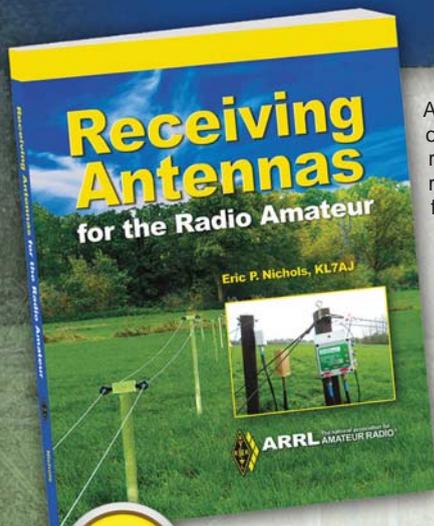

Antenna Zoning for the Radio Amateur

2nd Edition
Item No. 1192 – \$49.95

Techniques and strategies that a ham and his or her attorney can use to obtain an antenna-structure permit. Keep peace with the neighbors and enjoy ham radio!

Transmitting and receiving antennas have different jobs to do.

Although the fundamental characteristics of antennas apply to both transmission and reception, the requirements and priorities of receiving antennas can be vastly different from those of transmitting antennas.

Receiving Antennas for the Radio Amateur focuses entirely on active and passive receiving antennas and their associated circuits. There are relatively few cases where a radio amateur cannot benefit from a separate, well-designed receiving antenna or antenna system. On the low bands, including our new allocations at 630 and 2200 meters, heavy emphasis on the receiving end of these radio paths is essential for success.

NEW!

The *active* antenna holds a prominent position in this book, as it offers good receiving performance while taking up minimal space. Recent developments in radio frequency (RF) semiconductors, especially low-noise RF operational amplifiers, have made a number of previously difficult-to-implement active antenna designs simple to build.

Table of Contents

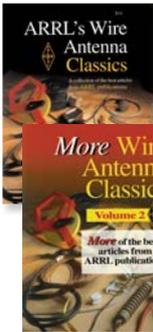

- Receiving Antennas are Different!
- Your Friend, the Decibel
- The Pre-amplifier Problem
- The Amazing Disappearing Antenna
- The Receiving Antenna as a Signal Generator
- The Quest for Infinite Power Gain
- The Role of the Resistor in the Receiving Antenna
- The Small Loop Antenna
- Achieving the Perfect Null
- You *Can* Make Accurate Field Strength Measurements
- The Aperiodic Loop
- The Q Factor
- The Beverage: In a Class of Its Own
- Dealing with Non-Reciprocal Propagation
- The Evolution of the eXOgon Antenna
- The Lowdown on LF
- The Random Wire
- Arrays and Beamforming Networks
- Powering Your Active Antenna
- Diversity Methods
- NVIS Receiving Antennas
- Receiving Antenna Projects and Accessories
- Materials and Construction Techniques
- Our Two New Bands

Receiving Antennas for the Radio Amateur

By **Eric P. Nichols, KL7AJ**

Item No. 0789

ARRL Member Price! \$24.95 (retail \$27.95)

ARRL's Wire Antenna Classics and More Wire Antenna Classics

Volume 1
Item No. 7075 – \$14

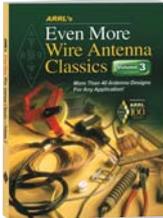

Volume 2
Item No. 7709 – \$17.95

So many wire antenna designs have proven to be first class performers! Here are two volumes devoted to wire antennas, from the simple to the complex. Includes articles on dipoles, loops, rhombics, wire beams and receive antennas—and some time-proven classics!

ARRL's Even More Wire Antenna Classics Volume 3

Item No. 0239 – \$22.95
ARRL Member Price! \$19.95

The best antenna projects and innovative designs from *QST*, from 2002 through 2013. Features more than 40 practical designs for a wide range of wire antennas. Discover new ways to experiment with wire antennas and why they are so rewarding to use.

International Antenna Collection

Volume 1
Item No. 9156 – \$19.95

Volume 2
Item No. 9465 – \$21.95

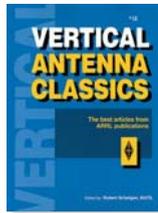

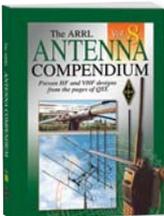

Collections of antenna designs from around the world—from 136 kHz to 1.3 GHz, receiving and transmitting, fixed and mobile designs.

The ARRL Antenna Compendium

Volume 8
Item No. 0991 – \$24.95

60 articles from *QST* featuring practical ideas, tips and some of the best antenna projects. You'll find designs such as the Handy Yagi Antenna, Compact 40 Meter HF Loop, 40 and 40 Meter Verticals on "Autopilot" and much more.

Vertical Antenna Classics

Item No. 5218 – \$12

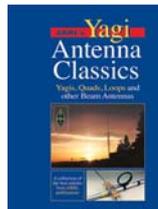

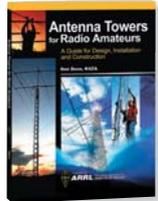

Vertical antennas are everywhere on cell phones, broadcast towers, portable radios and vehicles. And for good reason! Here are the best articles from ARRL publications in one book. Vertical antenna theory and modeling, VHF and UHF, HF, directional arrays, radials, product suppliers and more.

Antenna Towers for Radio Amateurs

Item No. 0946 – \$34.95

With years of experience as a professional tower climber, Don Daso, K4ZA, leads you through designing and building your own antenna tower. You'll learn the skills, tools, climbing techniques, and safety measures necessary to improve your antenna system.

The digital edition is available in the Kindle format from Amazon.

ARRL's Yagi Antenna Classics

Yagis, Quads, Loops and other Beam Antennas

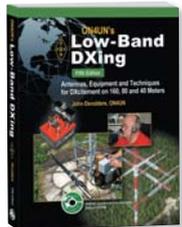

Item No. 8187 – \$17.95

Includes some of the best articles written about beam antennas, from ARRL publications. Will provide the reader with new and ambitious ideas, and computer-optimized designs for all-around best performance.

ON4UN's Low Band DXing

5th Edition
John Devoldere, ON4UN
Item No. 8560 – \$44.95

Includes antenna designs, operating guidelines, and an insider's scoop on low-band DXing. There's something for every active low-band operator, contester, and DX chaser! This edition features new insights and new design techniques for receiving antennas, dipole antennas and phased arrays.

**Antennas, Equipment
and Techniques
for DXcitement on 160, 80 and
40 Meters**

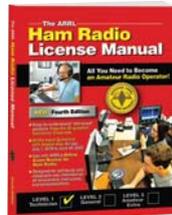

8 Licensing

www.arrl.org/shop ■ 1-888-277-5289

Level 1 – Technician **NEW!**

Get Licensed!

The most popular introduction into the world of Amateur Radio!

The ARRL Ham Radio License Manual

All You Need to Pass your Technician Class Exam!

4th Edition

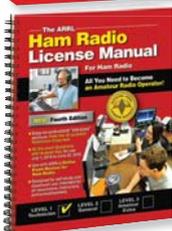

Softcover

Item No. 0871 – \$29.95

Spiral Bound

Item No. 0826 – \$32.95

- Easy-to-understand “bite-sized” sections. **Pass the 35-question Technician Class test.**
- **All the Exam Questions with Answer Key**, for use July 1, 2018 through June 30, 2022.
- Use with ARRL's **Online Exam Review for Ham Radio.**
- Designed for self-study and classroom use. Intended for all newcomers, instructors, and schoolteachers.

ARRL's Tech Q&A

7th Edition

Item No. 0864 – \$17.95

NEW!

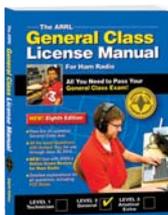

- Pass the 35-question test.
- Includes the latest question pool with answer key, for use July 1, 2018 to June 30, 2022
- Brief, clear explanations for all questions.

Level 2 – General

Upgrade from Technician

Enjoy the thrill of high-power communications on all HF bands!

The ARRL General Class License Manual

All You Need to Pass your General Class Exam!

8th Edition

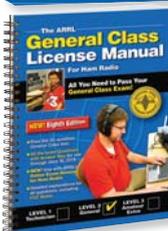

Softcover

Item No. 0307 – \$29.95

Spiral Bound

Item No. 1904 – \$32.95

- Pass the 35-question General Class exam.
- **All the Exam Questions with Answer Key**, for use through June 30, 2019
- Use with ARRL's **online Exam Review for Ham Radio.**
- Detailed explanations for all questions, including FCC rules.

ARRL's General Q&A

5th Edition

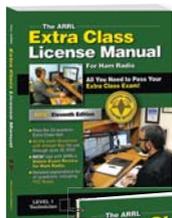

Item No. 0338 – \$17.95

- Pass the 35-question test.
- Includes the latest question pool with answer key, for use through June 30, 2019
- Brief, clear explanations for all questions.

Level 3 – Amateur Extra

Upgrade from General! Achieve the highest level in Amateur Radio!

The ARRL Extra Class License Manual

11th Edition

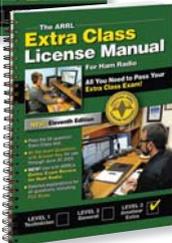

Softcover

Item No. 0451 – \$29.95

Spiral Bound

Item No. 0550 – \$32.95

- Pass the 50-question Extra Class exam.

- **All the Exam Questions with Answer Key**, for use through June 30, 2020.
- Use with ARRL's **online Exam Review for Ham Radio.**
- Detailed explanations for all questions, including FCC rules.

ARRL's Extra Q&A

4th Edition

Item No. 0567 – \$17.95

- Pass the 50-question Extra test.
- Includes the latest question pool with answer key, for use through June 30, 2020.
- Brief, clear explanations for all questions.

Online Review and Practice Exams

Use this book with ARRL's **Online Exam Review for Ham Radio** to review the study material chapter by chapter. Take randomly generated practice exams using questions from the actual examination pool. **You won't have any surprises on exam day!**

ARRL License Manuals and Q&A's are available in the Kindle format from Amazon.

Volunteer Examiner Supplies

ARRL Volunteer Examiners give so generously of their time, energy and skill. Celebrate your dedication to Amateur Radio with these popular supply items designed specifically to honor the service of ARRL VEs. If you are interested in becoming a Volunteer Examiner and serving the Amateur Radio community, it's easy and free!

ARRL/VEC Volunteer Examiner Manual

9th Edition
Item No. 1328 – \$10

A complete guide to the ARRL Amateur Radio Volunteer Examiner program. Whether you have ever thought about becoming a VE or you are a seasoned VE, this is everything ARRL VEs need to know.

VE Polo Shirt Black

Item No. 0281 – \$19.95
Black polo shirt embroidered with the words "Volunteer Examiner" on the front left chest. Superior wrinkle and shrink resistant. Sizes, S-4XL.

VE ID Badge Lanyard

Item No. 1342 – \$3.95
Designed specifically for ARRL VEs, this lanyard is imprinted with the words "ARRL Volunteer Examiner" and "Amateur Radio". Great for identifying volunteers at VE exams! White lanyard with black imprint.

VE Challenge Coin

Item No. 0711 – \$9.95

This commemorative ARRL VEC challenge coin is in the second in the series. The ARRL diamond and words "Amateur Radio Service" are depicted on the back. 1-1/2" round.

VE Patch Round

Item No. 0013 – \$5

VE Pin

Item No. 0023 – \$6

Symbolize your involvement as an ARRL Volunteer Examiner with this attractive black and gold pin. Wear it proudly! Size 1" round.

VE Patch Rectangular

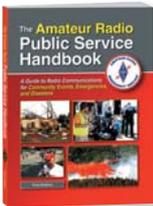

Item No. 0121 – \$2

Become an ARRL
Volunteer Examiner today!

10 Public Service

www.arrl.org/shop ■ 1-888-277-5289

The Amateur Radio Public Service Handbook

Item No. 4845 – \$24.95

For all hams that volunteer their time and skill to serve their communities. It provides knowledge needed for communicating quickly and effectively during disasters, emergencies, and community events, as well as an

opportunity to learn more about the Amateur Radio Service and its unique role in supporting the public.

The digital edition is available in the Kindle format from Amazon.

ARES® Field Resources Manual

Item No. 5439 – \$12.95

A quick trainer and field resource guide for the emergency communicator.

The digital edition is available in the Kindle format from Amazon.

ARES Magnetic Sign

Item No. 9413 – \$12.95

Perfect for use at public service and emergency communications support activities. Size 8 x 18 inches.

ARES Pin

Item No. 0241 – \$6

This colorful pin will symbolize your involvement in the Amateur Radio Emergency Service (ARES). Wear it proudly! Size 1" round.

ARES decals, stickers, and patches are also available at www.arrl.org/shop.

NTS Pin

Item No. 2606 – \$6

Symbolize your involvement in the National Traffic System (NTS). Wear it proudly! Size 1" round.

NTS stickers, patches and mugs are also available at www.arrl.org/shop.

ARES Polo Shirt

Item No. 0006 – \$24.95

Designed for public service and ARES volunteers, this sport polo is embroidered with the Amateur Radio Emergency Service® (ARES) logo on front left chest. A perfect way to symbolize your commitment to Amateur Radio and the Emergency Service program. Size, S–4XL. Color, Navy.

Emergency Power for Radio Communications

2nd Edition

Michael Bryce, WB8VGE

Item No. 6153 – \$27.95

ARRL Member Price! 24.95

Explore the various means of electric power generation, from charging batteries, to keeping the lights on. Covers the foundation of any communications installation — the power source.

ARES Deployment Gear

Great for ARES volunteers, emergency and public service use. One size fits most. ANSI/ISEA 107-2004 Class 2 compliant.

■ Neon Mesh Vest (M-3XL)

Item No. 0128 – \$15.95

■ Neon Solid Vest (M-3XL)

Item No. 0136 – \$24.95

■ Neon Hat

Item No. 0099 – \$14.95

Personal Emergency Communications

Item No. 0081 – \$14.95

Staying in touch post-disaster! Learn modern communications technologies and how to implement a realistic backup communication system.

ARES Paracord Bracelet

Item No. 1003 – \$4.95

Hand-designed and custom-crafted out of parachute cord, this blue and red paracord bracelet features the ARES logo on a black clasp. Useful in the field or in an emergency as it unravels. Small 8.5", Large 9.25".

ARES T-Shirt

Item No. 1331 – \$14.95

ARES® t-shirt, featuring the logo on the front left chest and "Radio Communications" on the back. Perfect for public service events. Size, S–4XL. Color, Navy.

Get on the Air with HF Digital

2nd Edition
Steve Ford, WB8IMY
Item No. 0833 – \$22.95

NEW!

ARRL Member Price! \$19.95

The popularity of HF digital communications among Amateur Radio operators continues to grow rapidly. A few watts of RF power are all it takes to work the world – digitally!

A step-by-step guide that'll get you started in the fascinating world of HF digital technology. Written in an easy to understand style, this book will show you how to set up and operate your own HF digital station. The text includes instructions for configuring software programs for popular modes such as PSK31, RTTY, FT8 and JT65. You'll also learn about other digital communication modes such as MFSK, Olivia, PACTOR, and WSPR. It's a fun and easy way for beginners to get on the air!

The digital edition is available in the Kindle format from Amazon.

Work the World with JT65 and JT9

Steve Ford, WB8IMY

Item No. 0437 – \$17.95

ARRL Member Price! \$15.95

Assemble an effective station and configure the software for best performance. Learn how to make contacts, and how to use these modes to test your station and study HF propagation.

The digital edition is available in the Kindle format from Amazon.

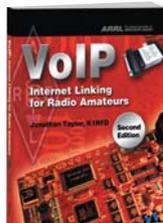

VoIP: Internet Linking for Radio Amateurs

2nd Edition
Jonathan Taylor, K1RFD

Item No. 1431 – \$21.95

ARRL Member Price! \$19.95

Your complete guide to the most widely-used VOIP systems used by hams; with particular attention to **EchoLink** and the Internet Radio Linking Project, or **IRLP**.

New Second Edition Now Includes Popular Modes FT8 and WSPR!

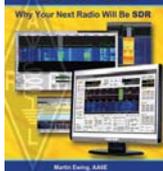

RTTY/PSK31 for Radio Amateurs

2nd Edition
Item No. 5003 – \$15.95

Fully updated, this edition provides everything you need to know to get the most out of this fascinating area of Amateur Radio. **CD-ROM included.** 48 pages.

The ABCs of Software Defined Radio

The ABCs of Software Defined Radio

Item No. 6320 – \$22.95
ARRL Member Price! \$19.95

An introductory guide to SDR and Digital Signal Processing (DSP) technologies. Discover the basic principles of SDR, advantages to SDR technology, and ways to utilize it in Amateur Radio operation.

Experience the Excitement of Digital Communications!

Nifty E-Z Guides

Nifty E-Z Guide to D-STAR Operation

Item No. 0125 - \$15.95

Using easy to understand explanations and illustrations, this book is an ideal resource for discovering the full range of operating modes and opportunities available to D-STAR users. 135 pages.

Nifty E-Z Guide to EchoLink Operation

Item No. 1094 - \$15.95

Your complete guide to EchoLink installation and operation. Discover how to use your radio or personal computer to make EchoLink contacts anywhere in the world! 140 pages.

Nifty E-Z Guide to PSK31 Operation

Item No. 0370 - \$14.95

Learn how to setup your station for PSK operation. Light on theory, this book concentrates on the practical issues of getting things connected and making PSK31 QSOs. 70 pages.

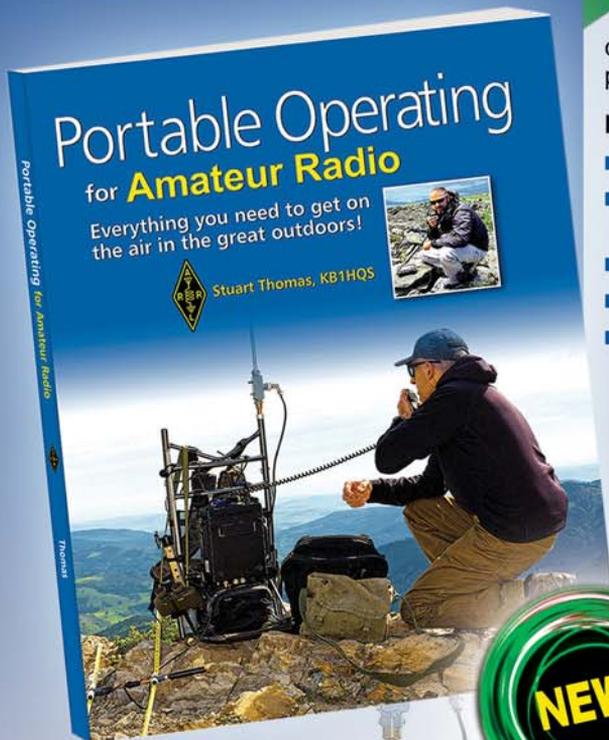

Nifty E-Z Guide to Adventures in DXing

Item No. 3065 - \$17.95

Use your radio transceiver, logging software and Internet resources to experience the thrill communicating anywhere in the world! 117 pages.

Grab Your Gear and Head Outdoors!

Anyone can give portable operating a try. Portable operators use HF and VHF bands, as well as SSB, FM, CW, and digital modes. There's something for everyone, no matter your license class or interests. Whether you want to activate from a picnic table at a nearby park, or a remote summit after a backcountry hike, **Portable Operating for Amateur Radio** offers a wealth of practical information to help make your portable Amateur Radio operations successful.

Includes:

- Types of Portable Operating
- Organizing and Carrying your Equipment
- Radios for Portable Operating
- Power Sources
- Portable Antennas
- Propagation and Spotting
- On the Air Activities
- Accessories and Tools
- Logging Contacts
- Online Resources

Portable Operating for Amateur Radio

Ham and Shortwave Radio for the Electronics Hobbyist

Item No. 0097 – \$25.00

Practical guide perfect for those interested in shortwave listening. Covers communications modes, frequency ranges, details on fixed, mobile, and portable ham stations, antennas, and more. Keep the lines of communication open in any situation!

Magnetic Loop Antenna

Item No. 2002 – \$29.95

Explains the theory, mathematically of the antennas magnetic and electric field principles. A variety of magnetic-loop antennas are included.

Arduino Projects for Amateur Radio

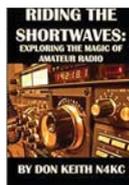

Item No. 5007 – \$30

Microcontroller projects you can accomplish on your own, no programming experience necessary. Provides detailed instructions, helpful diagrams, and hardware and software tips that make building your own equipment even more enjoyable.

Raspberry Pi 2 Workshop Manual

Item No. 1022 – \$30.95

The perfect introduction to the affordable small computer. This edition covers the Raspberry Pi 2 (model B) and is aimed at those switching on their Pi for the first time, guiding them through the full process of setup and configuration.

Riding the Shortwaves

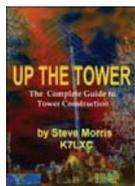

Item No. 1210 – \$18.95

Best-selling author and active amateur radio operator Don Keith, N4KC, shows those interested in joining the "tribe" of Amateur Radio enthusiasts as well as newcomers to the hobby and old hands, too, just how magical and exciting it can be.

Up the Tower

Item No. 1260 – \$35

The complete guide to tower construction. Over 220 pages of facts, techniques, hardware and lots of answers to your tower construction questions.

Shortwave DX Handbook

Item No. 9953 – \$34.95

Your gateway into the fascinating world of DX. This book will become a trusty companion for all radio amateurs interested in DX and enable them to take part in all kinds of DX activities.

Heil Ham Radio Handbook

Bob Heil, K9EID

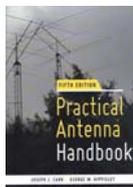

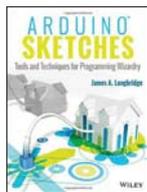

Item No. 7238 - \$15.00

Shares experiences and experiments that legendary author has had since being first licensed in 1956. Technical material is made easy and fun to understand. Photos and drawings guide you along the way.

Arduino Sketches

Item No. 1005 – \$35

Get the most out of your Arduino setup with expert programming instruction and hands-on practice to test your skills. You'll find coverage of the various Arduino boards, detailed explanations of each standard library, and guidance on creating libraries from scratch.

Practical Antenna Handbook

5th Edition

Item No. 0371 – \$52

Design and build your own antennas! Provides clear answers to questions frequently asked by hobbyists and electronics technicians, while bending theoretical concepts with hands-on experience.

Build Your Own Transistor Radios

Item No. 1367 – \$50

A hobbyist's guide to designing and building high-performance and low-powered radios. Includes complete projects and detailed schematics.

Shortwave Receivers Past and Present

4th Edition

Item No. 2302 – \$49.95

This huge 800 page hard bound book includes over 1700 shortwave and amateur communications receivers (plus 1200 variants) made from 1942 to 2013. Become an instant receiver expert!

"For Dummies" Series

Ham Radio for Dummies

Ward Silver, N0AX
3rd Edition
Item No. 0046 – \$24.99

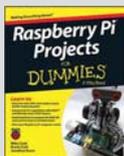

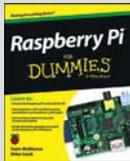

Your guide to everything there is to know about ham radio. This updated edition provides new and additional information on digital mode operating, as well as use of amateur radio in student science and new operating events.

NEW!

Raspberry Pi for Dummies

Item No. 2945 – \$24.99

Embrace the exciting new technology of Raspberry Pi! You'll quickly discover how to download and install the operating system, use the installed applications, and much more.

Raspberry Pi Projects for Dummies

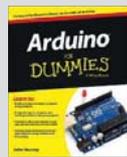

Item No. 0034 – \$24.99

Join the Raspberry revolution with fun and easy Pi projects. This book introduces Raspberry Pi basics and gives you a solid understanding of all the essentials you'll need to take on your first project.

Arduino for Dummies

Item No. 7000 – \$24.99

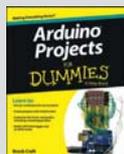

Leap into the fascinating world of physical computing. You'll discover how to build a variety of circuits that can sense or control real-world objects, prototype your own product, and even create interactive artwork. What you make is up to you!

Arduino Projects for Dummies

Item No. 8102 – \$29.99

Featuring an array of projects, this beginner guide walks you through each one so you can acquire a clear understanding of the different aspects of the Arduino board. Turn everyday electronics and simple old projects into incredible innovations!

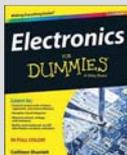

Electronics for Dummies

3rd Edition

Item No. 0196 – \$24.99

Make something fascinating of electronics. Learn how electricity functions, how to put it to work, what tools you need to build circuits, what you can make with them.

The Secret Wireless War

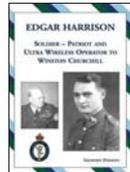

Softcover Edition
Item No. 0262 – \$39.95

The most complete book yet written on Britain's secret radio communications during WWII. It's an extraordinary story that includes hams among those patriots that undoubtedly helped the allied war effort.

Edgar Harrison

Soldier, Patriot and Ultra Wireless Operator to Winston Churchill
Item No. 0270 – \$29.95

A remarkable story of Edgar Harrison and the adventures he encountered throughout WWII.

Inside Enigma

Item No. 0611 – \$19.95

Secrets of the Enigma machine! Enigma expert Professor Tom Perera, W1TP, provides a history of these fascinating machines, how they were used, how the messages were coded and why the code was unbreakable.

World War II Radio Heroes

2nd Edition

Item No. 9705 – \$19.95

A story about ham radio operators and others who helped ease worries during a time of war. The book features more than 30 letters and postcards sent to the author's family in 1943.

16 RSGB Catalog

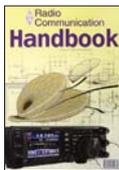

www.arrl.org/shop ■ 1-888-277-5289

Radio Communication Handbook

13th Edition

Item No. 3607 – \$59.95

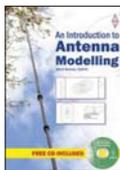

A guide to Amateur Radio theory and practice. Includes explanations from basic components to semi-conductors through oscillators, amplifiers, mixers, transmitters, receivers and a complete transceiver project. 864 pages.

An Introduction to Antenna Modelling

Item No. 9500 – \$19.95

Learn how to input antennas designs into MMANA-GAL, adapt designs you are given and optimize your designs for the best performance. Learn how to model a whole host of antennas including dipoles, the G5RV, the W3DZZ trapped dipole, verticals, magnetic loop antennas and more. 80 pages.

Six and Four

Item No. 3764 – \$24.95

Explore the excitement of the "magic band" with this complete guide to 6 meters, as well as 4 meters. With new countries gaining temporary or permanent access on a regular basis, you'll discover both bands are exciting and fun! 288 pages.

HF SSB DX Basics

Item No. 8826 – \$15.95

Contacting far parts of the world on the high frequencies on single side-band is one of the most fascinating areas in Amateur Radio. This is a practical guide to getting started and making the most out of this area of operation. 96 pages.

Novel Antennas

Item No. 0033 – \$24.95

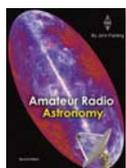

Radio Amateurs experiment with antennas to get the best performance they can. Few have ever considered anything beyond basic antenna designs - this book tries to set that right with a myriad of 'novel' antenna designs from around the world. 192 pages.

Successful Wire Antennas

Item No. 0363 – \$24.95

Packed with the latest wire antenna designs and developments, this book is a must-have for wire enthusiasts of all levels. Part of the popular family of *Practical Wire Antennas*. 240 pages.

Amateur Radio Astronomy

2nd Edition

Item No. 0388 – \$32.95

Explore the science of radio astronomy and how the average amateur can make and set up equipment to study the signals coming from space. 384 pages.

Radio Nature

Item No. 0240 – 24.95

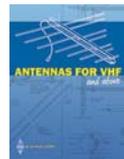

A fascinating look at naturally originating radio signals. Includes signal descriptions, explanations of where they come from, and the proper way to receiving and analyzing them. 256 pages.

Antennas for VHF and Above

Item No. 0501 – \$29.95

Discover what can be achieved on the VHF, UHF, and microwave bands. Includes all the details you need for understanding and experimenting with antennas. 144 pages.

HF Antennas for Everyone

Item No. 0145 – \$24.95

Divided into horizontal, vertical and loop antennas, this book features a combination of both the traditional and most recent designs. 366 pages.

Homebrew Cookbook

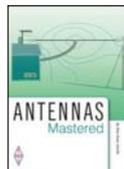

Item No. 0232 – \$24.95

Features a number of construction projects including receiver designs, simple circuits, and SSB transmitters. Projects use simple techniques with obtainable components. 208 pages.

Antennas Mastered

Item No. 0008 – \$24.95

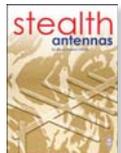

A fascinating look at the practical side of antennas. Covering a breadth of material, readers will find practical solutions for all bands, antenna types, meters, software and more. 288 pages.

Backyard Antennas

Item No. RBYA – \$34.95

With simple techniques, you can build high performance antennas. Create compact multi-band antennas, end-fed and center-fed antennas, rotary beams, loops, tuning units, VHF/UHF antennas, and more! 208 pages.

Stealth Antennas

2nd Edition

Item No. 0219 – \$24.95

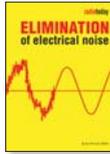

Practical solutions for hams unable to put up large antenna towers and get on the air! Expanded and updated! 224 pages.

Elimination of Electrical Noise

2nd Edition

Item No. 0036 – \$13.95

Learn about the various types of noise radio operators experience, how noise is generated, and practical way to deal with it. 64 pages.

Amateur Radio Mobile Handbook

Item No. 5225 – \$19.95

For hams who regularly “go mobile” or are interested in doing so. Covers all the basics, installing equipment and antennas in a vehicle, maritime mobile, bicycles mobile, and more. 128 pages.

LF Today

3rd Edition

Item No. 0387 – \$24.95

All the information you need to succeed on 136 & 500 kHz. Advice for amateurs just starting out, and reference information for those who already have some experience in LF. 192 pages.

Test Equipment for the Radio Amateur

Item No. 1027 – \$24.95

Learn how to measure the performance of your station. You'll find it's easy to make useful test equipment yourself. 256 pages.

Morse Code for Radio Amateurs

12th Edition

Item No. 0163 – \$15.95

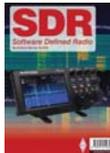

Learn Morse code and get the maximum enjoyment from using it. Includes how to get started, learning techniques, increasing your speed and more. CD-ROM included. 64 pages.

Software Defined Radio

Item No. 7203 – \$24.95

Intended for radio amateurs, short wave listeners or anyone interested in radio technology. If you're interested in the future of this exciting and fast developing area of radio or simply want to buy a SDR radio, this book is for you.

International Antennas

Item No. 0042 – \$19.95

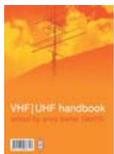

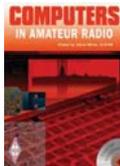

A collection of antenna articles from around the world. It is intended for everyone who is interested in Amateur Radio antenna design or is just looking for practical antennas to study and build. 176 pages.

Computers in Amateur Radio

2nd Edition

Item No. 6193 – \$24.95

An insight into the Amateur Radio uses for the home computer. Includes material on the possibilities of Raspberry Pi and the wide variety of data modes now available. CD-ROM included. 256 pages.

VHF/UHF Handbook

2nd Edition

Item No. 1229 – \$29.95

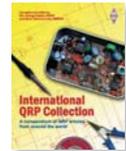

Your guide to theory and practice in the VHF and UHF bands. Topics include getting started, antennas, constructing your own equipment, satellite operation, local nets, and specialized modes such as data and TV. 320 pages.

IOTA Directory

Item No. 4008 – \$19.95

An essential guide to participating in the Islands on the Air (IOTA) award program. Includes details of the award rules, the IOTA contest, the IOTA honor roll, and fascinating reports of IOTA operations. A must-have for every island chaser! 128 pages.

Prefix Guide

12th Edition

Item No. 0209 – \$19.95

Complete guide to call sign prefix identification and information. DXCC listings, award details and more. 80 pages.

A History of QST – Volume 1: Amateur Radio Technology 1915-2013

Edited by Ward Silver, N0AX
 Item No. 0003 – \$34.95
ARRL Member Price! \$29.95

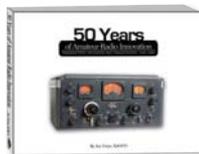

Discover the technical contributions made throughout Amateur Radio's first century. Begin in the era of spark and continue through advances in radio electronics, antenna design, and the dawn of satellites and digital communications.

50 Years of Amateur Radio Innovation

Joe Veras, K9OCO
 Item No. 0228 – \$39.95

A guided tour of more than 400 legendary radios from 1930 – 1980, the "golden age" of American Radio Technology. This span saw the introduction of receivers, transmitters and transceivers that would become famous throughout the world.

The Gil Cartoon Book

Item No. 0364 – \$15.95

The work of Philip "Gil" Gildersleeve, W1CJD, became a tradition. In tribute to this talented, creative and devoted artist and ham, the ARRL presents in this book a reprint of a portion of the best of his work.

200 METERS & DOWN

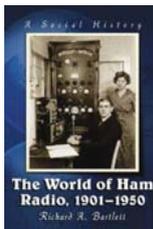

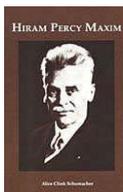

200 Meters & Down
 Item No. 0011 – \$15.95

This book chronicles the exciting evolution of Amateur Radio from the pioneers who perfected the wireless art, through the technical advances of the mid-1930s.

Hiram Percy Maxim

Item No. 7016 – \$19.95

This biography explores Maxim's many devotions as inventor, scientist, writer and humanitarian. It's a tribute to his ingenuity and determination.

The World of Ham Radio: 1901 – 1950

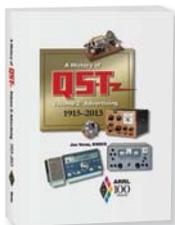

Item No. 0257 – \$29.95

Explore the history of ham radio operators, their social history and their many contributions to the technological development of worldwide communications. This book highlights ham radio in major events of the half century.

A History of QST – Volume 2: Advertising 1915-2013

Joe Veras, K9OCO
 Item No. 0048 – \$34.95
ARRL Member Price! \$29.95

Trace the history of receivers, transmitters, antennas, and other station gear through this collection of QST pages and advertising. It's a nostalgic journey, as told through the creative marketing, advertising and photography of yesteryear.

100 Years of QST Special Reissue

Item No. 0369 – \$9.95

Celebrate 100 years of ARRL's membership journal, with a commemorative reissue of the first QST—the December 1915 issue.

The ARRL Film Collection DVD

Dave Bell, W6AQ

Item No. 3725 – \$15.95

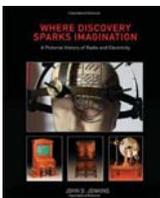

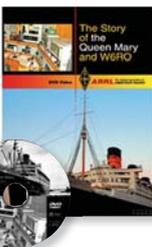

Take a journey back as ARRL presents a series of videos beginning in the late 1950s. From the original "Hams Wide Word" to "Amateur Radio Today", you will watch the evolution of Amateur Radio unfold before your eyes. 130 minutes.

The Story of the Queen Mary and W6RO DVD

Item No. 1344 – Only \$15.95

A story about W6RO, the Amateur Radio station located aboard the historic Queen Mary. With 35 years of continuous operation, W6RO has presented a positive image to millions of visitors. 28 minutes.

Where Discover Sparks Imagination

Item No. 1660 – \$34.95

Examine the early history of radio and electricity, with a collection of over 600 photographs. Anyone who appreciates the amazing workmanship and artistry of old technology will love this book.

Revisit the Ham Radio of Yesteryear!

ARRL Amateur Radio Hat

- Black Hat – Item No. 5004 – \$12.95
- Khaki Hat – Item No. 4094 – \$12.95

Medium profile cap with sandwich visor feature contrasting undersvisor, mesh lining and adjustable cloth strap closure. Available in black and khaki. One size fits most.

ARRL Mesh Hat

Item No. 1006 – \$12.95

Red and white hat embroidered with red ARRL logo on the front. Cotton top. Mesh back with buckle closure. One size fits most.

2018 Shortwave Frequency Guide

22nd Edition

Item No. 0107 – \$59.95

The latest schedules of worldwide broadcast and utility radio stations.

2018 Super Frequency List CD-ROM

Item No. 0156 – \$44.95

More than 40,000 entries cover both broadcast and utility stations. Hundreds of fascinating new digital data decoder screenshots! Requires Windows.

NEW! The ARRL DXCC List

2018 Edition
Item No. 0840 – \$5.95

The official source of DXCC awards information. Record the DXCC Entities you've worked and QSLed. A "must have" for every DXer!

Radiograms For Traffic Handlers

Item No. 1310 – \$2

Message Delivery Cards (package of 20)

Item No. 1320 – \$2

Message Pad with 70 sheets

Radio Setup Guides

Consider step-by-step guides that simplify setup and operation. Mini-manuals and pocket reference cards available are available for select Kenwood, Icom, Yaesu, Baofeng and Wouxun models.

Order Nifty! Ham Radio Guides online at www.arrl.org/shop.

HT Radio Desk Stand

Item No. 7325 – \$34.95

Convenient desk-top holder for all hand-held radios. Holds your radio upright and steady at a comfortable viewing angle. Use to hold your Android phone, iPhone, iPod and more.

ARRL All Weather Pen

Item No. 6108 – Only \$13.95

All weather click pen writes on wet paper, upside down and in temperatures from -30F to 250F. Flat black metal barrel, ink black. Size: 5 1/4" long.

ARES All Weather Notebook

Item No. 5580 – Only \$6.95

Pocket notebook conveniently sized to take with you—anywhere, anytime, in any weather! Features the ARES logo on a Polydura cover. 100 waterproof writing pages (50 sheets). Size: 3" x 5".

All Weather Minilog

Item No. 1374 – Only \$8.95

Waterproof logbook made of synthetic paper. Ideal for harsh field conditions, and mobile use. 50 pages. Size: 3" x 5".

2017 ARRL Periodicals on DVD

Fully-searchable collections of popular ARRL journals, *QST*, *QEX*, and *NCJ*. Every word and photo published throughout the year is included!

SEARCH the full text of every article by entering titles, call signs, names—almost any word.

SEE every word, photo (including color images), drawing and table in technical and general-interest features, columns and product reviews, plus all advertisements.

PRINT what you see, or copy it into other applications.

Item No. 0772 – \$24.95

System Requirements: Microsoft Windows™, 1999-2014 editions support Windows and Macintosh systems, using the industry standard Adobe® Acrobat® Reader™ software. The Acrobat Reader is a free download at www.adobe.com (included on CD through 2007).

Additional sets available on CD.

- 2016 Edition, Item No. 0680 – \$24.95

The Story of the Enigma: History, Technology and Deciphering

Item No. 1296 – \$15.00

The complete story of the Enigma cipher machine, the primary device used by the German Military during WWII. It begins with the history of codes and progresses through the development of code machines, the Enigma, and other cipher machines.

The DIY Magic of Amateur Radio DVD

Item No. 6047 – \$10.95

Directed toward the "Do It Yourself" movement, this video features innovative and fun ways hams use radio technology. 8 minutes 32 seconds.

Radio Amateur Callbook CD-ROM

Summer 2018 Edition

Item No. 0043S – \$49.95

Feature-packed CD-ROM contains the call sign and address information of the Amateurs Radio stations all over the world. With more than 1,600,000 licensed radio amateurs, it lets you find the data you are looking for in a fast and easy manner. Bonus USB drive included!

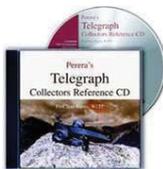

NEW!

Perera's Telegraph Collectors Reference CD-ROM

Item No. 1282 – \$15.00

A complete source of information for those interested in telegraph keys, from beginner to avid collector. It explains the history and technology of telegraph keys and gives their current values. Over 7,000 photographs, and an array of descriptions, prices, books, and more.

The ARRL Handbook 2018 eBook

■ Mac/Linux Version Item No. 0727 MLD – \$49.95

■ Windows Version Item No. 0727 WD – \$49.95

The fully searchable digital edition of the printed book, as well as expanded supplemental content, software, PC board templates, and other support files.

ARRL Software Library for Hams 5.0 Download

Item No. 1205D – \$19.95

Quick access to utilities, applications and information:

- Videos
- Image Editor
- DX Cluster client software (*CC USER*)
- *Software Defined Radio*
- **HF digital software** for PSK31, MFSK16, MT63, RTTY and JT65
- **WSJT software** for meteor scatter and moonbounce *and more!*

For more CD's & DVD's visit www.arrl.org/shop

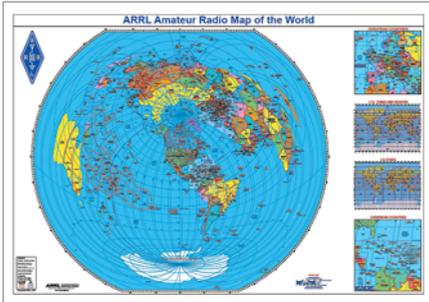

Buckmaster's HamCall™ CD-ROM

Item No. 8991 – \$49.95

Look up hams by call sign, name, street address, city, state, postal code, county, and country. Over 2,300,000 worldwide call sign listings.

22 Maps

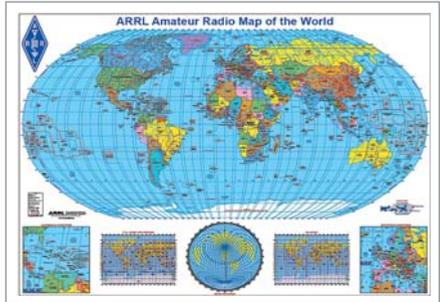

www.arrl.org/shop ■ 1-888-277-5289

ARRL Map of the World Azimuthal

Item No. 7717 – \$15

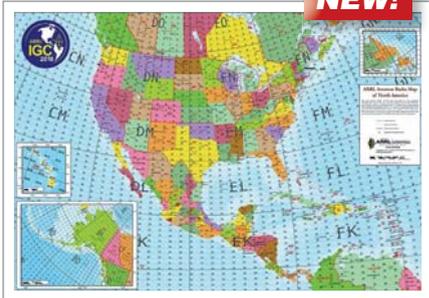

27 x 39 inches.

ARRL Map of the World Robinson

Item No. 8804 – \$15

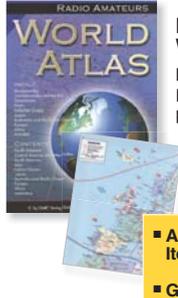

26 x 34.5 inches.

ARRL Map of North America 2018 Special IGC Edition

Item No. 8977 – \$15

27 x 39 inches.

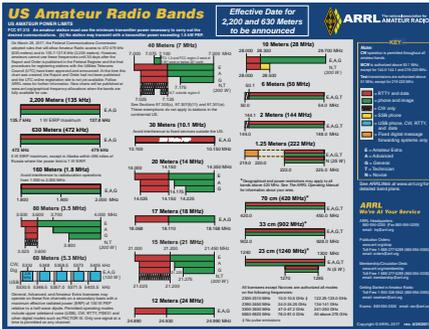

Radio Amateurs World Atlas

Item No. 5226 – \$12.95

Booklet of full-color maps, call-sign prefixes and more.

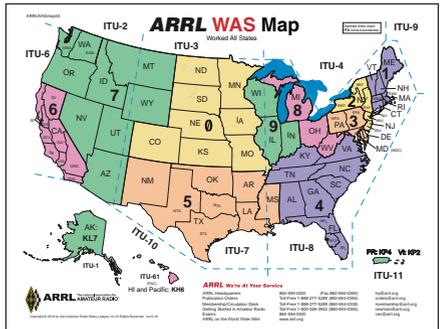

- ARRL World Grid Locator Atlas
Item No. 2944 – \$5.95
- Grid Locator (US Grid Squares)

Get on the Air with HF Digital

The Beginner's Guide to FT8,
WSPR, PSK31, and More!

Steve Ford, WB8IMY

2nd
Edition

2nd
Edition

NEW!

Now Includes Modes FT8 and WSPR!

The popularity of HF digital communications among Amateur Radio operators continues to grow rapidly. A few watts of RF power are all it takes to work the world—digitally!

Fully updated, the second edition of *Get on the Air with HF Digital* written by popular author, Steve Ford, WB8IMY, is a step-by-step guide that'll get you started in the fascinating world of HF digital technology. Written in an easy to understand style, this book will show you how to set up and operate your own HF digital station. Includes instructions for configuring software programs for popular modes such as PSK31,

RTTY, FT8 and JT65. You'll also learn about other digital communication modes such as MFSK, Olivia, PACTOR, and WSPR. It's a fun and easy way for beginners to *get on the air!*

Includes:

- Let's Build an HF Digital Station — An HF digital station boils down to three essential pieces: a radio, a computer and a device that ties them together.
- PSK31—Enjoy text chats throughout the world with low power and minimal antennas.
- RTTY—RTTY may be an old operating mode, but it's still the champ when it comes to contesting and DX hunting.
- The "WSJT Modes:" FT8 and JT65 — You'll be astonished at how low you can go with FT8 and JT65. High power and big antennas are definitely not required!
- MFSK and Olivia —With these two modes you'll still be chatting when all the others have given up.
- PACTOR — When your message absolutely must get through error free, PACTOR is a great way to go.
- WSPR — Transmissions are strictly one-way, but the results are fascinating!

Get on the Air with HF Digital 2nd Edition
