*Receipt and consideration of financial reports*

17. The Board moved to consideration of the financial reports. Mr. Niswander reported on the ARRL investments for 2018. Equity markets across the world were down for the year, predominately a result of fourth quarter results. Over the year, interest rates rose for all-but the longest-term maturities. The portfolio recorded a small loss for the year, consistent with market-derived expectations.
18. Ms. Middleton presented the report of the Chief Financial Officer. She reported that the League continues to have a financially strong balance sheet and generated a larger than expected gain from operations for 2018. Total revenues were greater than forecast while expenses were lower than forecast. Cash flow also continued to be good in 2018. She then entertained questions on her report.

*Consideration of the Consent Agenda*

19. The following reports were lifted from the Consent Agenda: Chief Executive Office; General Counsel; Ethics and Elections; EMC; and Public Service Enhancement Working Group. On the motion of Mr. Carlson, seconded by Mr. Abernethy, the consent agenda was **adopted**.

*Consideration of Items Removed from the Consent Agenda*

20. As part of his CEO report, Dr. Michel presented a PowerPoint outlining of his plans to reorganize and refocus the activities at ARRL Headquarters. He has identified providing better value to membership as a top priority. He sees value creation and value delivery as a key component to long-

term membership retention and growth.

21. Discussion moved to report of the General Counsel. Management will work with the President on two immediate upcoming actions: comments on the NTIA's Docket 181130999-8999-01, Developing a Sustainable Spectrum Strategy for America's Future, due January 21, 2019; and the FCC's Orbital Debris NPRM and Order on Reconsideration, Docket 18-313, due 45-days after publication in the Federal Register (after the government reopens).
22. Mr. Norris entertained questions on the report of the Ethics and Elections Committee. The scope of the Committee's decisions and lack of specific guidelines for standards to be used in evaluating issues based on precedents was a major concern.
23. Mr. Carlson spoke to the work on the EMC Committee. They are currently working on a series of articles to raise awareness of a variety of issues from major technological advances such as wireless power transfer systems. They are currently working on a series of articles to raise awareness of a variety of issues from major technological advances such as wireless power transfer systems designed to charge electric vehicles. While new systems need spectrum, protection of other bands for other services needs to be strongly watched. Board members need to be vigilant in providing potential concerns to the EMC Committee.
24. Mr. Williams opened the discussion on the work of the Public Service Enhancement Working Group and entertained questions. He updated the Board on how the committee had incorporated comments gathered from last fall's survey into the report. After finishing the ARES portion of this area, they will move to work on the National Traffic System.

The Board was on recessed at 4:49 PM until 9:03AM Saturday January 19, 2019 with all persons previously noted in attendance except Mr. Shelley.

*Consideration of Recommendations from Standing Committees*

25. On behalf of the EC, Mr. Norris moved, seconded by Mr. Holden the following:

To bring Article 1 of the Articles of Association of the ARRL into alignment with Connecticut state statutes and per the instructions of the Secretary of the State of Connecticut to Connecticut counsel for ARRL, Article 1 is amended to add the following sentence to the end thereof:

The Corporation is nonprofit and shall not have or issue shares of stock or make distributions.

The Article would then read:

Article 1: The name of our corporation shall be the American Radio Relay League, Incorporated. It may be informally referred to as ARRL, the national association for Amateur Radio. Our corporation commenced its corporate existence as the American Radio Relay League, Incorporated, when its Articles of Association were approved by the Secretary of the State of Connecticut on January 29, 1915. The original Articles of Association were subscribed by Hiram Percy Maxim, Clarence D. Tuska, and Lawrence A. Howard. The affairs of the corporation have since that time have been continuously governed by a Board of Directors selected by the Membership. The Corporation is nonprofit and shall not have or issue shares of stock or make distributions.

Mr. Michel explained to the Board that none of the changes to the Articles of Association approved by the Board since July 2011 had been accepted by the Connecticut Secretary of State. These approved but not effective changes would need to be submitted to the Secretary of State for them to become effective. It was the consensus of the Board to not submit those previously approved changes at this time.

A roll call vote being required, the motion was **adopted** with all fifteen directors voting aye.

.

26. The Board next considered recommendations of the Administration and Finance Committee. Dr. Widin, seconded by Mr. Carlson moved “That the ARRL 2019-2020 Plan, as recommended by the Administration and Finance Committee, be adopted. “After discussion, the motion was approved by voice vote.

27. Dr. Woolweaver moved, seconded by Mr. Carlson, that:

Whereas the ARISS program is an international consortium of Amateur Radio organizations and

space agencies including NASA, and

Whereas ARISS has been supported by 13 IARU societies including RAC, JARL, SRR and the ARRL since its inception, and

Whereas the ARISS program sponsors voice contacts between astronauts in space and school children typically in a school assembly, bringing together STEM program objectives and local Amateur Radio groups such as ARRL Affiliated Clubs bringing the equipment, technology and operating know-how, and

Whereas ARISS has demonstrated very positive public relations benefits to the ARRL, and

Whereas it is in the best interests of the ARRL to support the ARISS program and to provide assistance and guidance to Amateur Radio groups providing ARISS support;

Be it therefore resolved: A permanent ARISS committee is created by the Board to develop an interactive relationship with ARISS. Said committee should consist of three members of the Board, with assistance of the ARRL Lifelong Learning Manager and the ARRL Communications Manager as consultants, all to be appointed by the ARRL President. The committee will recommend the framework under which the ARRL will support ARISS to include recommendation of the ARRL representative to ARISS, standardized mission support, operational needs, ongoing mentoring and assistance to local Amateur Radio clubs in support of ARISS contacts, and a standardized set of Public Relations messages to ensure consistency of the ARRL message to ARISS, local Amateur Radio groups and the public at large.

After discussion the motion was **adopted** by voice vote.

28. Mr. Ryan moved, seconded by Mr. Carlson, that:

Since 2013 the Ad Hoc LoTW Study Committee has provided splendid direction in the improvement of Logbook of the World, and

The LoTW Study Committee has proven to be an invaluable resource in improving the functionality and usability of the LoTW system, and

It is expected LoTW product will continue to be enhanced by the oversight by a committee of experts;

Be it therefore resolved that the Ad Hoc LoTW Committee be evolved into a permanent LoTW Committee reporting to the ARRL Administration and Finance Committee with membership appointed by the ARRL President.

After discussion, the motion was **adopted** by voice vote.

31. On behalf of the Programs and Services Committee Mr. Tiemstra moved, seconded by Mr. Abernethy, that “The ARRL Board of Directors adopt the ARES Plan as recommended by the Programs and Services Committee.” After discussion the motion was **adopted** by voice vote.
32. On the motion of Mr. Abernethy and second of Mr. Tiemstra, the Board **adopted (with applause)** that:

WHEREAS, Field Day is recognized in North America as the premier public event during which to showcase Amateur Radio to the general public as well as inactive and prospective Ham Radio operators, and

WHEREAS, hundreds of media outlets across the country cover Field Day every year, focusing on the purpose of the event, the methods used, the successes and challenges faced by teams of
