

Index

A

Actual exposure: 5.13
Agencies, organizations and publishers: App E.1
Amateur Radio Health Group: 4.2
American Physical Society: 3.2
Ampere's law: 2.4
Ampere-Maxwell Law: 2.3
ANSI: 3.1
ANSI C95.1-1982 Standard: 4.2, App D.2
ANSI standard: 3.3
ANSI/IEEE C95.1-1992 Standard: App D.1
Antenna:
 Choose a different type: 5.28
 Dipole: 5.4, 5.10, 5.27, 5.28
 Dipole, currents and charges on a: 2.4
 Electric field under a dipole: 5.26
 End fed: 5.26
 Gain: 2.6, 5.28
 Gains in free space: 5.15
 Ground plane: 5.9
 Indoor: 5.5
 Modeling: 5.16
 Multiple: App D.2
 Near and far regions of: 2.2
 Quad: 5.27
 Patterns: 5.20, 5.21
 Radiating fields of: 2.5
 Resonant half wave dipole: 2.3
 Terms, basic radio-wave: 2.1
 Velocity of moving charges on an: 2.4
 Yagi: 5.7, 5.9, 5.13, 5.17, 5.21, 5.27
 Yagi azimuth pattern: 5.22
 Yagi HF: 5.14
Antenna Optimizer: 5.16
Arithmetic, using: 5.6
ARRL: 4.1, 4.3, 4.4, 4.12, 5.2, App C.1
 Antenna Book: 4.11, 5.5, 5.6
 Bioeffects Committee: 4.3
 Compliance distance tables: 5.10
 Handbook for Radio Amateurs: ... 4.11, 5.5, 5.6, 5.26
 Headquarters: 4.6
 Laboratory: 5.13, 5.15

Objectives: 4.13
Regulatory Information Branch: 1.1, App A.1
RF Safety Committee: 1.1, 3.1, 3.5, 4.3
 Web site: 3.5, 4.10, 5.17, App C.1
 Worksheet: 5.29
Athermal effects of EMR: 3.2
Attenuation by buildings: 5.26
Average exposure: 5.8, 5.9, 5.17
Average field strengths: 5.9
Average power: 1.2, 5.5, 5.8, 5.12, 5.14, 5.17
 Determining: 5.11
Averaging period: 4.8

B

Balanced: 2.3
BASIC: 5.16
Basic radio-wave antenna terms: 2.1
Beezley, Brian, K6STI: 5.16
Boundaries: 2.2
Broadcast stations: 4.4
Buildings, attenuation by: 5.26

C

Calculating PEP: 5.5
Cardiac pacemakers and RF safety: 3.4
Categorical exemptions: 4.4, 4.9, 5.3, 5.22
Cellular phones: 4.4, App D.2
Characteristic impedance: 2.1
Choose a different antenna type: 5.28
Coaxial transmission lines: 2.1
Compliance distance: 5.2, 5.9, 5.10, 5.13, 8.1
Compliance distance tables: 5.12
Controlled and uncontrolled areas: 5.9
Controlled environment: 2.7, 3.3, 4.8, 5.12, 5.23
Controlled power density MPE limit: 5.23
Controlled/occupational exposure environments: ... 4.5
Controlling access: 5.29
Conversion of power in watts to dBW: 5.8
Correcting problems: 5.27
Current flow and charge accumulations: 2.3
CW: 5.7
CW keying characteristics: 5.11

D	
dB to decimal number loss table:	5.7
dBi:	2.6
dBW:	5.7
Decibel (dB):	5.5, 5.6, 5.8
Dipole antenna:	5.4, 5.10, 5.27, 5.28
Currents and charges on a:	2.4
Feed point current:	2.6
Resonant half wave:	2.3
Duty cycle:	2.7, 5.14
Duty factor:	2.7, 5.11
Correction:	5.12
E	
E and H fields:	4.7
E and H to power density formulas:	5.20
E field:	5.18
E or H field in the near field:	5.16
Effective date:	4.4
Effective radiated power (ERP):	5.3, 5.20
Electric (E) fields:	2.2, 2.3, 2.5, 3.3, 4.7, 5.10
Electric currents:	2.3
Electric field (E field) strength:	2.7
Electric field under a dipole antenna:	5.26
Electromagnetic (EM) fields:	2.3, 3.1
Electromagnetic fields and waves:	2.1
Electromagnetic radiation (EMR):	3.1
Electromagnetic waves:	2.1
Element standards:	App A.6
<i>ELNEC</i> :	5.16
End fed antennas:	5.26
Environmental Assessments (EAs):	4.4, 4.12, 5.24, 5.27, App A.1, App A.3
Environmental evaluation:	App A.2
Epidemiological research:	3.2
Erratum to the rules:	4.9, 5.3
Estimating compliance:	5.9, 5.14
ET Docket 93-62:	4.1, 4.2
ET Docket 93-62 First Memorandum Opinion and Order (FCC 96-326)	App B.2
ET Docket 93-62 First Memorandum Opinion and Order (FCC 96-487):	App B.17
ET Docket 93-62 First Memorandum Opinion and Order (FCC 97-303)	App B.21
ET Docket 93-92:	1.2
Evaluation by mode, power, antenna and band:	5.9
Evaluation requirement:	5.2
Evaluation steps:	5.7
Evaluation, how to do an:	5.9
Evaluations and the FCC:	5.29
Exams, Amateur Radio:	4.4
Exceptions to the evaluation exemptions:	4.11
Exemptions, additional:	4.4
Exposure environments:	4.4
Controlled/Occupational:	4.5
Uncontrolled/General public:	4.5, 4.6
Exposure levels, calculating total site:	5.23
Exposure standards:	2.6
Exposure to RF energy:	4.1
EZNEC:	5.16

F	
Far field:	2.8
Far field pattern:	5.21
Far field power density formula:	5.12, 5.15
Far field region:	2.2
Far field region:	5.19
Faraday's law of induction:	2.4
FCC:	4.4, 4.11, 5.2
Evaluations and the:	5.29
Forms Distribution Center:	App C.1
Information on RF safety:	1.2
Information sources:	App D.1
OET:	App D.1
Regulations:	3.1, 4.1, 4.12, 5.1, 5.22, 5.25
RF exposure guidelines:	4.8, 5.2
RF exposure rules:	5.8
Rules:	5.24
Standards:	2.2
Tables:	8.75
Web site:	5.4, 5.20, App C.1, App D.1
